

FLUSHING NOZZLE

USER GUIDE

Item #: FN

OVERVIEW

The Flushing Nozzle works with the Little Hose Monster™ and is ideal if you only need to perform flushing and do not need to measure flow-rate. When used with the Little Hose Monster, the Flushing Nozzle neutralizes the force of discharge water just like the original Hose Monster®.

MAINTENANCE

- Wipe down the product with a damp rag after each use to remove dirt and debris. To reduce corrosion on brass, aluminum, or steel fittings apply WD-40 or Gibbs Brand Lubricant, then wipe with a rag.
