

LITTLE HOSE MONSTER STABILIZER

USER GUIDE

Item#: STK

OVERVIEW

The Little Hose Monster Stabilizer enables you to stack up to three Little Hose Monsters™ and to keep units upright while flowing. A nylon strap wraps around the bottom of the stand and around the top of the stacked units to secure them together. The simple design enables easy assembly and disassembly for transporting and storing.

COMPONENTS

- Center Beam
- Cross Beam
- One nylon strap

ASSEMBLY INSTRUCTIONS

- Nylon strap wraps around HML bodies and underneath the center beam.
- Verify that strap is forward of the acorn nut as shown.
