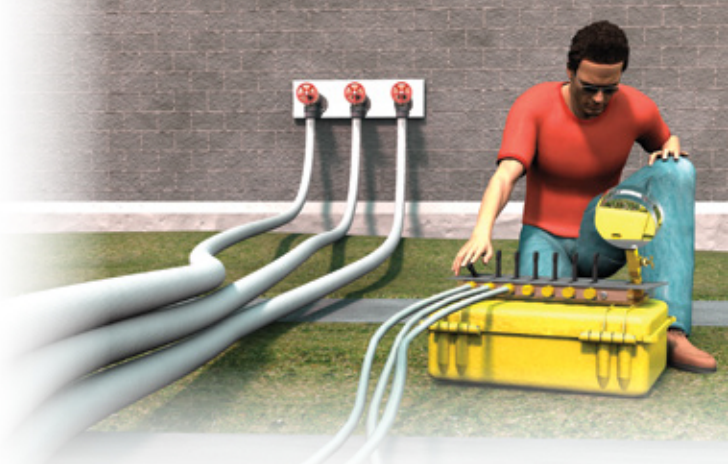
FIRE PUMP TESTER SOFTWARE



Use Fire Pump Tester Software (FPT) to collect fire pump test results professionally, comprehensively, and easily. FPT stores all of your fire pump information, calculates flow-rates, and graphs pump test curves.

Collect Critical Fire Pump Information

Record and store your fire pump technical specifications such as: job-site location, manufacturer, model, rated capacity, rated pressures, rated speed, driver information, controller information, jockey pump information, and much more. You can create additional custom fields for any other information you want to store.

Fire Pump Information

Pump ID:	Sample Fire Pump
Pump Type:	○ Horizontal ○ Vertical In-line ◉ Vertical Turbine ○ End-Suction
Manufacturer:	Fire Pump Industries
Model:	1594BF
Serial Number:	12-2217984
Listed (check all that apply):	☑ FM ☑ UL ☑ ULC
Rated Capacity (GPM):	1000
Total Dynamic Head (ft):	231
Head at Churn 0% (PSI):	120
Head at Rated 100% (PSI):	100
Head at Overload 150% (PSI):	67
Rated Speed (RPM):	3500
Pump Rotation:	◉ Clockwise ○ Counterclockwise
Suction From:	City Main

Produce Pump Test Reports

The program produces professional PDF reports that can easily be printed out or emailed to your customer. Reports include fire pump specifications, fire pump test results, inspection and maintenance tasks, and pump test curves. NFPA 25 requires that records be kept by the property owner of all inspection, testing, and maintenance of the fire pump system.

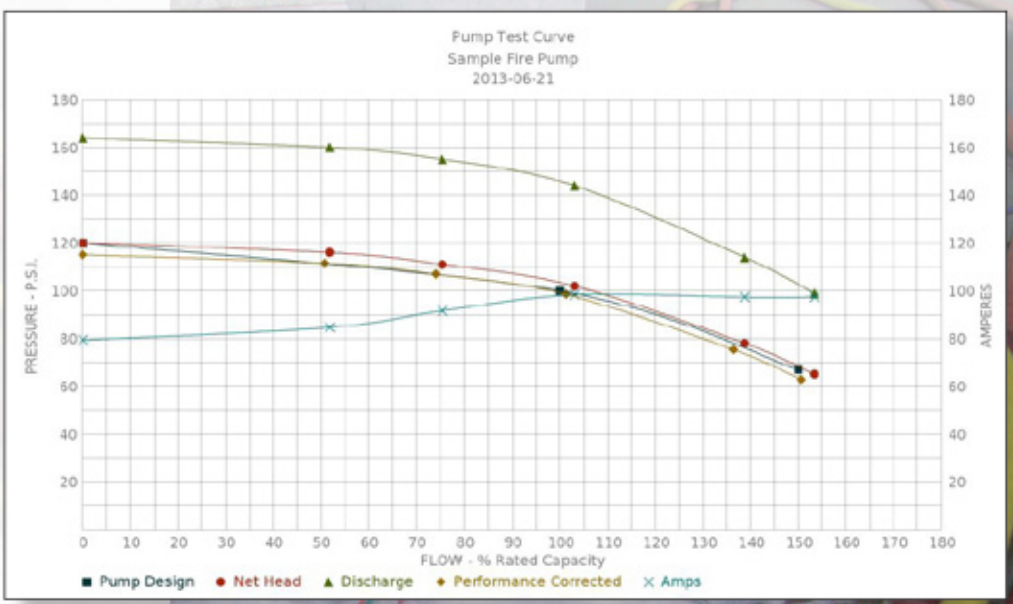
Graph Fire Pump Performance

FPT generates graphs with the Pump Design Curve, Net Head Curve, Discharge Curve, Performance Corrected Curve, and Ampere Curve.The graphs make it easy to compare and visualize the pump performance compared to several different criteria.



Cloud Data Storage

All your Data is securely stored in the cloud, which allows it to be accessed on any device with an internet connection. Go paperless and enter in your pump test results at the job-site using a tablet. Access your past pump test results. Multiple users within your company may be added to your account and may access the same data. The program is accessed through the internet so any software updates or new features will be added to the software with ease.
